No. 17

## E. E. Freeman Elected President Rosebud B. B. Asso.

The annual meeting of the Rosebud Amateur Baseball Association was held at Crossfield on Monday night.

There was a full attendance of officers and delegates from Olds, Didsbury, Carstairs, Crossfield and Airdrie present and all were enthusiastic over the outlook for a good season of baseball.

Election of officers resulted as follows: Hon. President, L. L. Hartmann, Olds; President E. E. Freeman, Didsbury; Vice-President, M. B. Maybank, Olds; Secy-Treas. R. M. McFarlane, Crossfield. Representatives of the Alberta Amateur Baseball Association present were Pres. J. A. McGhee and Sec. E. D. Battrum.

Ben Dorval, of Airdrie, was presented with a silver medal for making the most home runs in the league last season.

Some difficulty is being experienced in arranging a schedule for five teams. Olds does not want to travel as far as Airdrie and Airdrie does not want to come up as far as Olds, and there is also a difficulty in arranging the games evenly with a five team league. The matter was finally left in the hands of President Freeman to arrange as well as possible.

The first game of the season, however was definitely arranged to be played at Olds on May 24th.

The meeting dispersed with the best of feeling on all sides.

Mr. and Mrs. George Mortimer who went to Vancouver last fall to make their home, returned on Monday. George had suffered with rheumatism all winter and says that the cold damp weather was too much for him. He reports that Mr. and Mrs. Norman Weicker are in fine health and that Norman is going ahead building his 10,000 residence this spring.

## THE GREAT PRICE SLAUGHTER STILL GOING STRONG

It's a regular old-time Merchandise Eruption. Talk about being shuffled into luck; talk about hitting the high joy spots in a sky bus; a visit to J. V. BERSCHT'S SHOE SALE will give you an idea of what a REAL SHOE SALE means, and you'll realize that our SHOE BARGAINS are REAL BARGAINS.

This Shoe Sale will continue till the 30th day of April.

Our stock is still too large and it must be reduced before we let up on the price-cutting.

Every line in footwear reduced in price, including Running Shoes for the whole family. BUY NOW.

## AROUND THE TOWN

E. E. Freeman was a business visitor at High River and Calgary over the week end.

The Presbyterian Ladies Aid will meet at the home of Mrs. E. E. Freeman on Wednesday, May 3rd.

Miss Edna Ruby of Calgary spent the week end with her parents, Mr. and Mrs. J. A. Ruby.

Mr. and Mrs. H. E. Osmond and two daughters, Kathleen and Edith, were visitors at Calgary for a day or two last week.

Mr. and Mrs. J. M. Reed and two sons, Charlie and Wilfrid, visited at Calgary for a few days last week.

Miss Ruby McNaughton who was visiting with her parents for a short time last week returned to Calgary on Sunday.

The matron of the hospital wishes to acknowledge the following donations:—Anglican church, cut flowers; Mrs. Pratt, church; Mrs. W. McCoy, veal.

The teachers who attended the Convention in Calgary last week all returned at the week end, several coming in on Sunday's train.

Mr. J. E. Harris is exchanging with Rev. Wm. S. Watson next Sunday, and will therefore conduct the Didsbury Baptist service at 2:30 p. m.

Mrs. Charles Moore wishes to thank all her friends and neighbours for the kind services offered during the illness of Mrs. Frank Oliver.

Master Carl and Miss Helen Ruby of Calgary spent their Easter holidays with their grandparents, Mr. and Mrs. J. A. Ruby.

## Great Curiosity Found by Didsbury Citizen

Another secret of mother earth was disclosed when Mr. A. Dyck of east Didsbury was assisting in digging a well on a farm about 20 miles east of town a short time ago.

The curiosity consisted of a tree with some kind of fruit hanging from its branches and was found about sixteen feet down. Its condition was totally different from that of a petrified tree in that it was turned into a solid clayey sand formation and was very soft. Mr. Dyck states that the complete tree was found embedded in the earth, its branches even holding the fruit which appeared very much like a large pear. However when it was being taken out it broke up on account of its softness but he broke some of the pieces into town and they are now at the Pioneer Office.

We used to claim in the old days that we were living in the banana belt of Alberta, perhaps

there was more truth than fiction in this claim as evidence is being presented every year that Alberta must have been a tropical country at one time in the ages long gone by.

## Weekly Half Holiday

On petition from the business men of the town, which was presented to the Council, a by-law has been passed proclaiming the usual weekly half-day holiday every Wednesday during the summer months, to commence on May 17th and to continue until September 1st.

The annual meeting of the Didsbury Tennis Club was held last week at which the majority of officers were re-installed. The Club fees were brought down to \$3 and \$2 and a fairly large membership is expected.

The St. Hildegard Chapter O. E. S. are holding a whisky drive and dance in the Opera House on Friday May 5th. All Masons and their friends are cordially invited to attend. Admission 75c.

## The Burden of Proof is on You

If you lose a receipt for a cash payment it is not the other man's job to prove that the account is unpaid.

It is up to you to prove payment.

Most often it cannot be done. In paying bills by cheque, protection is assured.

Interview one of our branch managers and arrange to open a checking account.

NEVER COOK UP COLD MEAT WITHOUT IT

## The Miracle Of Spring

Spring has come again with all that it implies of hope, rebirth, optimism, fresh youth and happiness. Spring, the ever recurring miracle of the ages, is only necessary to open one's eyes to realize the wonders of Spring all around. Brooks and rivers, joyfully break their icy fetters and go babbling, rushing on their way, trees throw out their tiny leaves; seemingly dead and dried grasses almost overnight take on a lustre of green; birds appear, spontaneously and fill the air with song. In a word, all nature awakes from her long sleep and thrills with life and the joy of living.

And with Spring comes and brings to nature it should mean and bring to all mankind. Just as the cold earth yields to the benign influence of the growing strength of the sun's rays, and casts off the iron bands which have held it in frozen grip, so should man respond and throw off the lethargy and passiveness of winter and renew his youth and vigor with Spring.

Of course, men do, with the coming of Spring and the renewed activity of nature, undertake those duties of the year which the season brings, while the clever artisans are again employed in structural works. But Spring should mean to all men and women a deeper, more significant message than merely a call to summer's work.

Spring is the season of hope and promise. It is the time of year when we may turn their backs and their minds on the past and look forward with confidence to the future.

Spring 1932 was a hard and discouraging one for many people. To some it was a time of hopelessness and even acute suffering. In fact, it caused a lowering of one's morale, a weakening of one's courage, discouragement and the development of a feeling of pessimism about the future. Nature seemed cruel, and the efforts of man to withstand its vagaries and onslaughts appeared weak and futile.

But with Spring, nature comes in a happier, smiling mood. It offers encouragement. One's first effort, therefore, should be to respond to this kinder mood, and to shake off the pessimistic feelings of the past, to turn from the dark forebodings of winter, to forget past discouragements, and to face the future with confidence and a brave countenance.

Recognizing the fact that environment has a great deal to do with one's state of mind, it is the part of wisdom to improve that environment in every way possible. A man cannot make a success of things if all around him are evidences of failure, progress and efficiency are not born in surroundings marked by shoddy and carelessness. Winter always is characterized by accumulations of useless and waste material, and the melting of the snows reveals boundless mismanagement which is almost depressing.

A general thorough house cleaning should be the first Spring duty. One should keep clean the yard, remove and destroy the refuse of winter, repair that broken fence, judiciously apply a little paint. Indeed, all little things which give a random, shabby, unpromising, uncheerful appearance to your home will be amazing. And don't forget to clean up your own thoughts and ideas. Bury out of sight your old bad feelings and gloomy pessimisms. When washing your house windows don't neglect to clean the windows of your mind and soul.

Decorating outward conditions have a depressing effect on the inner man, just as from within that must come the will to improve those outward conditions. To alter the sluggishness of winter to courage means, not life, but death. Just as nature throws off the shackles of winter and responds to the appeal of Spring, so must each and every individual refrain from further dwelling upon the discouragements and losses of the past and throw themselves wholeheartedly into the present with their eyes fixed on the future and their energies spurred on by an inexorable ambition to succeed, employed in constructive work.

A Spring clean up is good business from the purely practical standpoint. The result of waste is always waste. It is a matter of economy. It is a safeguard of health. But it has a beneficial effect on oneself. It releases the individual, and to a marked degree, clean up is accompanied by a re-adjustment and re-orientation of one's attitude on life and its problems. A good spring clean up has been taken.

## France Will Test Motorless Aircraft

Two Exposed to Take Place During the Summer

Two of the most advanced airplanes are to be made on an aerodrome scale in the Government of Alberta in Can-

ada. France, during the summer, will be the launching point of the first efforts in the direction of developing some kind of airplane capable of flying about the world. All of these were generally regarded as the most advanced in the world. Germany, which the French have now entered, the field on a large scale.

The municipal council of Avranches, the well-known lake or that name, has just authorized the Avranches Aero Club to operate in the port on aerodrome for the use of the body formally known as the Experimental Congress of Motorless Airplanes, which is to be held there from July 15 to September 15. The hangars will be erected at the foot of the peak called the Puy de Pommiergrasse. The motorless airplanes will "take off" from the top of the peak.

## WORLD HAPPENINGS BRIEFLY TOLD

Unemployment in Berlin has dropped to the lowest figure since the armistice. During the last three months only 14 workers out of every 1,000 were unemployed.

Customs duty collected on agricultural implements during 1931 amounted to \$19,157,370, out of a total duty collection of \$179,667,682. During the same period, duty collected on foodstuffs amounted to \$29,722,408.

A fellowship of the value of \$500 per annum has been donated for a limited term by the Imperial Oil Company, which will open to graduates of universities in Western Canada who wish to pursue post-graduate work at the University of Toronto.

Hon. John Hart, minister of finance, was sworn in by Lieutenant Governor Nichol as minister of industries for British Columbia. He will retain the office of minister of finance. # Truce Is Declared Between Factions Along The Fermanagh Border

Belfast.—A truce was declared between the Ulster special constables and the Free State troops, which have been in maneuvering position along the Fermanagh border between Ulster and South Ireland, it is announced here.

Sir Basil Brooke, commanding the Fermanagh special, crossed into Free State territory at Ballycotton near Ballyronan and conferred with the rival leaders.

The interview was harmonious and an agreement was reached under which both sides will withdraw their forces a short distance from the border line to avoid the risk of a clash. Each commander agreed to punish transgressors of the pact.

The son of a farmer named Kelly, living at Listowel, Armagh, while going to fetch medicine for his mother, was overhauled on the road by a motor car. Kelly failed to satisfactorily answer questions put to him by the occupants of the car, which took him into the machine and drove away. Afterwards the men blindfolded Kelly, placed him in a ditch and fired a volley at him. Kelly later was found gravely wounded and taken to the infirmary in Armagh.

## Hawaii Hears Music from Alberta

Calgary.—A concert programme of music played on a phonograph at the Canadian Government wireless station at High River on March 31 last, was heard for half an hour at the town of Waiboku on Maui Island, 1000 miles from Honolulu, or just about 2,800 miles from High River, Alberta. Word to this effect was received by W. W. Grand, wireless chief of the Canadian Government station at High River.

## War Memorial for Moose Jaw

Moose Jaw.—Residents of Moose Jaw, at a special meeting called by Mayor W. F. Dunn, decided upon the erection of a temporary war memorial in this city. A committee, composed of Mayor Dunn, Col. Norman Gentes, Mrs. W. H. Greene, J. R. Greene, chairman of parks board, and three others to be chosen later, was nominated by the meeting to proceed at once to draft details for erection of the memorial.

## Japan Welcomes Prince

Royal Visitor Heartily Greeted by Thousands in Yokohama

Yokohama.—The Prince of Wales has arrived on his official visit to Japan. Thousands greeted him as he landed from the British battle cruiser Renown which brought him from India.

His reception was carried out according to the programme in the minutest detail, as is the Japanese custom. Yokohama's welcome was not noisy as the children who lined the quay were disciplined to silence, but the people showed their enthusiasm of waving flags in their brilliant sunlight could scarcely be paralleled. The Japanese were excited in their sea by the Japanese light cruiser division and in the bay six battleships, including the famous Mikasa, joined the escort. As the vessels entered the harbor there was a roar of guns and shrieking of sirens. Every class of society was represented in the crowds on the wharves.

The Prince left Yokohama or Tokyo in a special train, three coaches of which were especially built for his use.

## Lord Curzon's Note

### Pleaseas United States

#### Britain Recognizes Reimbursement Claim for Army in Germany

Washington.—Secretary Hughes received from Ambassador Harvey in London a note from Lord Curzon, Foreign Secretary, which stated that the Government of Great Britain would not in any circumstances desire to question the rights of the United States in its claims for payment of costs of the American army now occupying in Germany. Secretary Hughes has submitted a note to Ambassador Thawing for delivery to the British Foreign Office, expressing his gratification over Lord Curzon's letter and expressing hope that reimbursement for costs of the United States' army in the Rhineland would soon be made.

#### Law Degree for Gen. Pershing

Montreal.—General John Pershing, chief of staff of the United States army, will receive the honorary degree of doctor of laws at McGill University on May 12, it was announced here by General Sir Arthur Currie, vice-chancellor and principal of the university.

#### Canada's Navy Has Returned

Hallifax.—The Canadian naval squadron consisting of the light cruiser Aurora, destroyers Patriot and Patriota, and submarines CH-14 and CH-15 have arrived in Halifax from West Indian waters.

## COULDN'T DO HOUSEWORK.

### HEART WAS SO BAD

Many women feel weak and are down and unable to look after their house- hold duties owing to the heart action becoming impaired or the nerves becoming strained.

Nature intended women to be strong, healthy and happy instead of sick and weak. But how can a woman be strong and healthy day in and day out if she has to go through the same routine of work, sweeping, dusting, cooking, washing, etc. It is an unendurable strain.

Her heart is affected and she gets irritable and nervous, sometimes having spells, sometimes having fainting fits.

To all women whose heart is weak and whose nerves are unstrung we would recommend

#### MILBURN'S HEART AND NERVE PILLS

as the best remedy to tone up the system and strengthen the weakened organism.

Mrs. Daniel Bezzant, Logansville, N. Y., writes: As I was troubled with a weak heart for a long time, I am writing to tell you what your great remedy, Milburn's Heart and Nerve Pills, has done for me.

At first I could not eat or sleep. I could not sleep, I would take snuffing spells, and was so weak I could not do my housework. I tried two other remedies, but they did not help. A friend advised me to try your pills. I used six boxes and am completely relieved. I think they are the best remedy for heart trouble.

Price, 50¢ a box at all dealers, or mailed direct on receipt of price by The E. Milburn Co., Limited, Toronto, Ont.

#### No Duty on Gifts to War Areas

London.—A law was promulgated according to Reuters' Paris correspondents, abolishing customs duties and other taxes on gifts to departments and communes in the devastated areas of France. The law is to be retroactive, and duties already levied on such gifts will be cancelled.

Calgary.—The advisability of the Canadian Government instituting a system of old age pensions will be debated in the House of Commons. Dr. E. LePantin (Liberal, 1910), has filed a resolution on the order paper

# Anthracite Producers Believe That Miners May Modify Demands

## Asiatic Settlers Net Desirable

### H. H. Stevens Appeals for Policy of Restricted Immigration

Kingston, Ont.—Speaker Hon. H. H. Stevens, M.P., Vancouver, made a strong appeal for a policy of restricted immigration.

We must not increase in population, he said, "but we must shut the bars against all races and types that cannot be assimilated by us. By assimilation I mean marriage. We can take British who want to go on the land the Danes, Swedes and Norwegians all of whom make ideal citizens, but we cannot admit people from Central and Southern Europe and Asia."

Mr. Stevens urged that Canada not withhold a great immigration movement from China, Japan and India. "The white race would eventually become swallowed up if no effective laws were enforced against Oriental immigrants."

New York.—Anthracite producers notice a tendency on the part of the union leaders to widen their demands when, before the miners and operators sub-committee on wage contract negotiations, they asked permission to reconsider their demand number one.

This demand stipulates that the new contract agreed upon in settling the miners' strike shall extend for two years, prohibits the making of individual agreements and provides for the establishment of uniform wage rates for operators and mechanical loaders.

Operators reported they had talked at least three of the demand, asserting that a uniform rate was already in effect, and that the miners' rates were in use. Much initial comment discussion of the demand was temporarily abandoned, 40 operators' district presidents to consult their men before deciding whether it should continue an issue in the negotiations toward settlement of the strike.

Only three of the 10 provisions which the strikers have insisted their next contract must contain have been taken up by operators. With none of these points settled and 16 more to be considered, both sides predicted that several weeks will pass before a foundation will be laid for a new contract and work begun in the anthracite regions.

## War on Border Smugglers

### U.S. Will Fight Rum Runners at Canadian Border With Machine Guns

Oban, N. Y.—Adjutant General Kincaid has made public a telegram from Roy A. Hayes, Federal Prohibition Commissioner, in which Mr. Hayes was quoted as endorsing the Adjutant General's plan to co-operate with Ralph A. Day, Federal Prohibition Director for the State, in an intensive campaign against rum smugglers along the Canadian border. Employment of machine guns and armored motor cars to be furnished by the Adjutant General, was contemplated in the campaign to stop the illicit traffic, according to the announcement of the plan in New York.

Two men taken into custody in the absence of R. T. Ferguson, general representative of the distillers of Canada, Oban with a motor car visited his residence, tied and gagged a Chinese cook, and carried away two loads of liquor.

### Self Preservation—Nature's First Law—Heed It!

#### Preserve Your Strength

Tillsonburg, Ontario.—A site can remain healthy if Dr. Pierce's medicines were used. Dr. Pierce's family at home say they never tasted to give good results. The Golden Medicine was used as a tonic and blood purifier also for bronchial trouble and it proved excellent. I used it for a month for bronchial trouble and Dr. Pierce's Favorite Prescription to build me up when I was rundown and they were both safe in recommending all of Dr. Pierce's medicines knowing all to be good. Mrs. Clifford Mitchell, of Tillsonburg, Ontario, says: "Please send your nearest drug store, in tablets or liquid, or send 10c to Dr. Pierce's Laboratory, Buffalo, N. Y., for a small package of any of his remedies. Write Dr. Pierce, President Invalids' Hotel in Buffalo, N. Y., if you desire free medical advice."

## How's Your Liver?

### Health Is Kept, If You Observe This

Sinaihaha, Sask.—"I have taken Dr. Pierce's Golden Medicine. Diaperery for a week and am now in excellent condition and would not be without it. I suffered from congestion of the liver about six years ago and I always carry a small bottle of Dr. Pierce's medicine. I also give it to my family for colds and it cured them in a very short time."—Mrs. Enagh Mitchell, Box 102.

## Farmers And Creameries Can Retain Agents to Look After Cream Shipments

Elimination of cream buying stations, as provided for in the Amendments to The Dairymen's Act passed at the recent session will not prevent farmers or creameries maintaining agents at local points to look after the shipment of cream. This is the statement made by officials of the Agricultural Department after consultation with the officials of the Attorney-General's Department. The Attorney-General's Department has interpreted "cream buying stations" to mean, in the spirit of the act, stations for the sampling, grading, weighing and testing of cream, and that the elimination of these stations will be insofar as these services alone are concerned, and that there is nothing in the new legislation to prevent farmers, either individually or co-operatively, or the creameries themselves, maintaining someone at local points to look after cream shipments, to see that they are kept in proper condition and got away on the trains at the proper time.

This was one of the difficulties which those opposed to the elimination of cream stations saw in the proposed new system, that it would mean that cream shippers would have no system of caring for cream at shipping points. But this difficulty has now been overcome.

The great object behind the new movement is to clear the channel between the producer of high grade cream and the market for high grade butter, in other words, to see that the farmer who takes the trouble to put the quality into his cream—and no person else can put it there—gets the benefit of his effort by being able to reach the highest ~~standard~~ available. This will be enabled to be done by the fact that no one will be granted to distributor and government ~~agents~~ at central points.

The old system of cream buying stations was estimated to have cost the industry \$250,000 annually. It is estimated that the restricted service at local

points under the new amendment, should not cost more than \$50,000. In addition to this the government has appropriated \$10,000 for government grading, which makes a total of \$90,000 or approximately \$100,000. If these figures are ultimately borne out, it means a direct saving to the industry of \$150,000.

Furthermore, the dairy commission is confident that the improvement of quality during the first year of the new system will reach the value of \$150,000. This improvement in quality would increase and be cumulative from year to year, increasing the amount of revenue to the industry and resulting in the securing and holding of quality markets of Alberta butter.

It is pointed out by the Dairy Commissioner that since the year 1917 the percentage of "specials" or high grade in the butter graded by the department had fallen from 56.3 per cent, to 7.7 per cent in 1921, with a consequent increase in "seconds" or low grade butter. In 1917 Alberta butter had reached the highest peak of quality in the history of the industry in this province.

The great fault has been, of course, in the quality of the cream. It is pointed out that in 1923 churning in 1921, 50 per cent, showed more or less stale cream flavor, so that the responsibility of getting the production back to the high point of quality previously occupied rests with the farmer and producer.

Experience of both Saskatchewan and Manitoba has proven that the elimination of the cream buying stations has resulted in a marked improvement in the quality of butter and with some years' experiences of the new system there has been no demand in these provinces for a return to the old system.

WEDNESDAY, APRIL 26th,

Talking about turning corners with autos serious complaints are being made of the carelessness of a great many auto drivers this season. They seem to have forgotten the very serious danger for everybody concerned by this practise of cutting corners. The town council could help to avoid this great danger by the expenditure of a very little money in the purchase of one or two silent policemen at the main corners in town. We understand that these can be purchased for \$12 each, a small sum if they should be the means of largely correcting this great evil. Constable Sick has been trying to impress this upon the Council for some time but so far without success. If these policemen were put up where they should be then there would be no excuse for any accident that might occur and then proper penalties could be imposed.

### EVERYBODY ANXIOUS FOR "THREE MUSKETEERS"

Sixteen duels, a man holding up a broken bridge while three riders cross it, the stealing of a queen's jewels, a desperate fight with a conciousless woman or their recovery, the smashing of one of the greatest intrigues of history—these are but a few of the dramatic incidents in Douglas Fairbank's sixth United Artists picture "The Three Musketeers" scheduled for Monday, April 30th, at the Didsbury Opera House.

History retold in celluloid! That's what is claimed for this picture by the management of the Didsbury Opera House. Based on the marvelous adventures and escapades of the dashing D'Artagnan and three of King Louis XIII's Musketeers, this photoplay unfolds the history of France in the early Seventeenth Century when that monarchy was dominated by the designing and crafty Cardinal Richelieu, a soldier by training but a statesman and churchman only by virtue of intrigues he devised.

No more vivid and picturesque tale has ever been presented on the screen than this, according to Manager Fisher. From a photographic standpoint it is a work of art, and costumes and sets, are marvelous. It is believed that this photoplay will go down in film history as one of the classic productions.

Fairbanks' interpretation of the dashing and impulsive D'Artagnan will present him to his admirers in a new light, and the work of the all-star cast that supports him will ensure satisfaction to all photoplaygoers.

## AROUND THE TOWN

Continued on page 8

Mr. Lawrence McNaughton, son of Mr. and Mrs. Alex McNaughton, who is on the staff of the S. S. B. at Calgary, spent the holidays on a visit to his parents. His many friends will be glad to hear that his health is much improved and that he is looking fine.

Last week was a regular "April" week. Snow, rain and sunshine all helped to give us an optimistic feeling for a good spring. The wet weather since April came in has perhaps delayed seeding to some extent but the resultant moisture will make up for the delay.

If you like a good lively time and a good dance don't fail to attend the dance in the Opera House on Monday, May 8th, at 2 p. m. at W. G. Liesemer's hay sheds, east of the U. G. G. elevator.

Mr. J. W. Phillipson and Mr. W. G. Liesemer have kindly consented to donate their services free to the town for this sale and no doubt there will be a great demand for this property.

Full information of the sale will be found in our advertising columns.

ROYAL HOTEL INNISFAIL  
DESTROYED BY FIRE

Another old Alberta landmark was destroyed by fire at Innisfail on Sunday morning when the old Royal Hotel in that town was completely demolished.

Did you see the picture in the Calgary Herald on Monday night where the girls of Didsbury gave a welcome to the Duke of York? Well, well, girls, you have evidently put one over the town daddies for we're sure that they would have helped you to give a great reception to his royal highness if they had only known. However they have the consolation of knowing that it was the girls of Didsbury in Lancashire, England that had to give the reception, which is unfortunate for the girls of Didsbury, Alberta Canada. Never mind, cheer up girls.

Mr. Frank Hayes, editor of the Creston Review (B.C.) was a visitor with the Editor and Mrs. H. E. Osmond over the week end. Mr. Hayes was associated with us in operating the Pioneer some fifteen years ago and he no doubt will be remembered by some of the old timers of the district. He states that the Creston Valley is fast becoming a big fruit country, especially for apples, and that the fruit growers of the district are very keen to secure the mairie markets, one advantage for this section being that the fruit can be shipped in here in twenty-four hours, assuring the public of its freshness and good quality. His visit with us, while of short duration, was much enjoyed, as he was well acquainted all through Alberta, at one time being a reporter and one of the Editors of the Edmonton Bulletin, and the talk over earlier days was much enjoyed by both.

In this community the public is entering those shops on which the light of advertising is falling.

## How's Business?

Advertising, backed up by the right spirit, the right goods and the right service, can rescue a sinking business and will make a prosperous business more masterful in its own community.

When John Wanamaker the Prince of Merchants, began business, he resolved to force matters. He was not content to WAIT to be found out—he DETERMINED TO BE found out. In short, he advertised. He threw on his business small as it was, the light of publicity, and the public of Philadelphia entered the shop on which the light shone.

In this community the public is entering those shops on which the light of advertising is falling.

## A WORD TO THE PUBLIC

Auction Sale of Good  
Town Property

Attention is called to an advertisement in another column of an auction sale of lands belonging to the town which has been taken over from the C. and E. Townsite Company.

This land is situated east of the C. and E. railway and comprises some of the best residential and garden lots and acreage right in the centre of the town, property that was eagerly sought after when owned by the C. and E. but which for some reason was always held out of the market by the Townsite Company.

The sale will take place on Monday, May 8th, at 2 p. m. at W. G. Liesemer's hay sheds, east of the U. G. G. elevator.

Mr. J. W. Phillipson and Mr. W. G. Liesemer have kindly consented to donate their services free to the town for this sale and no doubt there will be a great demand for this property.

Full information of the sale will be found in our advertising columns.

ROYAL HOTEL INNISFAIL  
DESTROYED BY FIRE

Another old Alberta landmark was destroyed by fire at Innisfail on Sunday morning when the old Royal Hotel in that town was completely demolished. The old Royal was at one time the best known hotel in any small town on the C. and E., and many a joyous time was spent there by old time ranchers and farmers. The building was a three storey brick veneer and besides the hotel rooms contained pool hall, restaurant, confectionery parlor and clothing store and was valued at \$10,000 partially covered by insurance.

Several silver cups, including the Mitchell cup and other curling trophies, were destroyed by the fire.

## TABERT—CARSON

A quiet, but very pretty wedding took place at the Siberts and May, parsonage on Saturday afternoon April 8th, at 3 o'clock, when one of our industrious young farmers in the person of Joseph Tabert, about twelve miles east of town, joined heart and hand with Miss Ethel Carson, a very highly respected young lady, formerly from Minnesota. The happy young couple will reside on the farm east of Didsbury. We wish them a happy and prosperous home life.

Mrs. Ethel Adams had the misfortune to run a crooked needle into her hand last Wednesday. The needle ran in about an inch and she had to be brought in to the doctor to have it cut out. It is hoped that she will not suffer any more serious results from it.

Mrs. Hermansen wishes to thank the Rev. Mr. Clapp and congregation of the English church for the flowers they sent Ethel, also Ethel's little friends for Easter gift.

Mrs. B. Hermansen has been an honored member of the local yard of the M. I. Lumber Company.

**DIED**—Alfred John, late son of

Mr. and Mrs. E. C. Hansen, on Saturday, April 9th, and 11 months 21 days.

## Entirely New Treatment For Bronchitis, Catarrh.

### No Internal Medicine to Take

Years ago the profession sought Catarrh by internal dosing. This upset the stomach and didn't remove the trouble. The modern treatment consists in breathing the Catarrhine, the essence of Catarrhine, which goes instantly to the source and the trouble. Catarrhine is successful because it penetrates every liquid medicine. The healing vapor of Catarrhine drives out the germs, soothes the irritation, relieves the cough, makes Catarrhal troubles a thing of the past. It cures all forms of chronic bronchitis. Catarrhine is a wonder. Two months treatment one dollar. Small size 50c. Sold everywhere at The Catarrhine Co., Montreal.

## Vertical Flight Problem Solved

Test of Handley Page Slot Wing Proves Successful

The latest tests with the new tanks Handley-Page high lift slot wing show that the figure of vertical and horizontal flights is solved by aircraft fitted with such high lift wings rather than by the helicopter system.

The new Handley-Page torpedo-carrying aeroplane, the first machine fully equipped with the variable slot type of wing, has undergone further test flights.

As soon as the engine was "open ed up" the biplane jumped straight into the air with practically no pre-motor run.

When the slots were closed it showed a very high speed; when they were opened again the machine slowed down to practically nil and descended vertically on an even keel for more than a thousand feet, in a space about as big as a tennis court.

What is more important still, it could have flown away again from the same restricted space.

The action of this opening and closing wing is similar to the action of a bird's wing when it opens and closes the main feathers for slow landing on a telegraph wire, or when flying from a confined space.

It was invented by Handley-Page in March, 1929, since when Handley-Page have been carrying out extensive tests.

The latest machine is nicknamed "The Heavit", owing to its being said to have 57 different varieties of control.

The machine proves that this

## At Tea Time In The South

The wonderful creations that are now on display for Southern wear. This stunning frock is of white silk crepe and a brocaded fabric in blue and white uncut velvet. The lines are rather long and square. The side panels are longer than the rest of the frock, giving this mode the uneven hem line which is so popular just now.

Wing is a definite evolution that is going to make aviation a wonderful commercial proposition.

### Movement Towards Canada

Nebraska Farmers Interested in Farm Land in Canadian West

(Special Correspondence by G. C. Parton, Winnipeg)

During the past year the Canadian Immigration Service in Nebraska says this section has been a most popular recruiting ground for emigrants from the rural districts, who are desirous to move into the Canadian Northwest. More purchases of land than homesteads have been controlled by Nebraska to the Canadian prairies, but many homesteaders also have gone from here.

W. V. Bennett, Dominion Immigration Agent at this point, is daily in receipt of personal calls and letters of inquiry from all over the State from those who are going or contemplating going to the Canadian Northwest.

Homesteading is not very popular with Nebraska emigrants except with the younger sons of the farmers who were themselves homesteaders in Western Nebraska. The agents supply these people with railroad maps and sensible advertising matter pertaining to the Northwest.

Many Canadian and American soldiers who served overseas are anxious to obtain land on the Prairie Provinces. Many of these boys are having land and want homesteads. They have some money and a few of them want to buy land. In cases where they have had experience as farmers they are promptly taken in hand and given every encouragement. If they are mechanics and want to go to the different cities they are acquainted with the conditions prevailing in their particular trades.

Dr. A. H. Hippie is chairman of the citizens committee which is arranging to have J. Deane Walker, editor of Dominion Publicity, deliver addresses before the Chamber of Commerce of the Northwest, the Kiwanis Club and the Lions Club.

Dr. Chase's Kidney-Liver Pill, one pill a dose, 25c a box, all dealers, or Edmundson, Bates & Co., Ltd., Toronto.

### Could Not Eat

Constipation is caused by a torpid condition of the liver. Dosed with salts, castor oil, etc., to move the bowels, cannot afford more than temporary relief.

If you are to rid yourself of this ailment and the scores of annoying symptoms and diseases which come in its wake, it is necessary to get the liver right by such treatment as is suggested in this letter:

Mrs. Alvin Richards, R. R. No. 1, Seeler's Bay, Ont., writes:

"For two years I was afflicted with indigestion, and in the morning when I got up my breath was bad. I had a poor appetite, and just felt like eating certain foods, and many different medicines at a laxative without benefit, and the doctor's medicine did not help me at all. Finally I tried Dr. Chase's Kidney-Liver Pill, and found them better than anything I had ever taken. I am high pressure men to say one troubled with constipation or kidney troubles."

Dr. Chase's Kidney-Liver Pill, one pill a dose, 25c a box, all dealers, or Edmundson, Bates & Co., Ltd., Toronto.

### Business Brothers

President Neilson, of Smith College, was making a rather tedious journey and was glad when the man who had the seat in front of him turned around and began a conversation. The man proved to be a traveling salesman and took it for granted that Dr. Neilson was another. "What's your line?" he asked. "Mine's skirts."

"Well, so is mine," said the president of Smiths.—New York Evening Post.

### Fur Farming

Western Provinces Offer As Good Opportunities as the East for this Industry

Dr. W. G. Church, Dominion Inspector of Silver Black Foxes for Live stock Branch, Department of Agriculture, Ottawa, Ont., says:

After having personally visited the different provinces of Canada, and studying the situation from every angle, I am of the opinion that there are wonderful opportunities for this industry in the western provinces. When I say wonderful, I will quote what has been done by one of the eastern provinces, and in a future article will explain why the west has a chance of doing equally as good, if not better work, than the east has done.

Everyone recognizes the fact that Prince Edward Island is an agricultural country. They also know that she is an island, and therefore rich in fisheries, and this island is often referred to as the garden of the gulf, and everyone who has visited this island has been willing to concede that this is the proper title, and that it certainly is a garden, and when they investigate the fishing industry, they are also ready to承认 that it is a most glorious industry. For those on the shores of this island are caught the most delicious oysters which command the highest market price, as also do lobsters, clams and many varieties of deep water fish such as mackerel, cod, salmon and halibut that went to swell the revenue from this industry.

Then combining the revenue from both the fisheries and agricultural

products, the revenue from the fox ranching industry of Prince Edward Island was as great as the others combined.

Just stop and think of this.

I am going to write a series of articles dealing with this industry, and will gladly furnish free of charge any information relating in any way to the industry.

Parties wishing such information are to write me, and enclose a self-addressed, stamped envelope for return.—Dr. W. G. Church, Summerside P. E. I.

### Fisherman's Friend

The Original and Only Genuine

EDWIN W. FIELD

"I'm convinced if I had taken Tanlac two years ago, when my troubles first began, I would have been saved a world of suffering," said Ed W. Field, 228 Jefferson St., Milwaukee, Wis.

"My case proved that when a man's stomach goes wrong, everything goes wrong with him. The first thing I noticed out of the way was loss of appetite and next that no matter how sparingly I ate, I was sure to have an attack of indigestion. I finally got so I couldn't walk a couple of blocks without having to stop and rest, and I was so nervous that often I sat up in a chair all night long."

"Tanlac has made a new man out of me, my stomach is as sound as a dollar and I feel fine all the time. I am a firm believer in Tanlac because I know it delivers the goods."

Tanlac is sold by all good druggists.

#### Too Much Unrest

Many Causes Advanced for Present Restlessness in World

Opinions as to the cause of "unrest" so much in evidence vary quite as much as the numerous forms in which the unrest manifests itself. Some of the causes advanced are too much jazz, too much noise, too much dancing, too much talk, too much sex, too much religion, too much preaching, too much unimportant, too much business, and so on. It seems to be either too much or too little of one thing or another. The only thing on which nearly everybody seems to agree is that there is too much unrest.—*Standard Union*

The Ganges, India's most important river, is 1,557 miles long and is navigable for a distance of 350 miles from the sea.

#### Eager to Get Facts

American Agriculturists Want to Know More About Farming Conditions in Canada  
(Special Correspondence by G. C. Porter, of Winnipeg)

Fargo, N.D.—In point of territory covered this is the most important immigration outpost maintained by the Dominion Government in the United States. Through this gateway streams emigrants from Kansas, Missouri, Arkansas, Oklahoma, Texas, Mississippi and Louisiana into the "West." Agent F. H. Hewitt is the agent in charge of the Government here and as present his mail brings thirty-five letters daily enquiring about the prospects for farm, fruit and dairying prospects on the prairies and in British Columbia.

During the past three weeks I have traversed the prairie States of Minnesota, North and South Dakota, Iowa, Nebraska, Kansas and Missouri. Not since 1912 have I found such keen interest in things Canadian.

I attended a Farmers' Institute at Colby, Kan., recently. This is the extreme western part of the State. These "Institutes" are informal gatherings of farmers where reports are read from Agricultural Societies. Through Agent Hewitt carrying his exhibits from country fair to fair in Canada, the farmers have a very accurate knowledge of the conditions on the Canadian prairies. The prairie people are eager to get facts. They are familiar with scientific soil culture. To tell one of these men that a given farm produced so many bushels to the acre is to invite such a multiplicity of questions that only a soil expert could answer. Jacob Mohler, Secretary of Agriculture for Kansas, says that for the first part of April his office has a considerable number of prospects for the Canadian Northwest who will go up to "spy on the land." Most of these agents would rather have a "prospect" make a trip over the line before he tries to decide on location or details of any kind. Mr. Mohler, in failing to me, remarked, "I have known of many men who went to Canada and prospered and then I have heard of some who came back disappointed." It is to these disillusioned ones that agents are now working.

**A Cure for Asthma.** Give Asthma half a chance and it gains ground rapidly. But give it repeated treatments of Dr. D. R. Kellong's Asthma Cough and Cold Remedy and it is beaten. There is no half way measure about this remedy. It goes right to work and drives asthma out. It relieves the throat, soothes the lungs, and leaves no place for the trouble to lurk. Have it by you for the only time.

**Whistling Tree.** The "Tsotzil" or whistling tree of South Nubia is so called from the distinctive sounds made by the wind in its branches. The sound is caused by the holes bored by an insect in the spines of the branches.

#### Speed of the Tortoise

Takes Nearly Four Years to Travel One Mile

A professor at Wisconsin University in America has been playing a jolly game with tortoises. He has discovered, by letting loose 166 tortoises all labelled, that a tortoise takes four years all told to a few days to cover a distance of one mile.

The professor also noticed that in a period of six months the 166 tortoises went a distance of 115 yards, thus making their average speed about two feet in one day.

Travelling at that rate, a tortoise starting from London would take nearly a century to reach Edinburgh.

#### Historic Knife

The Camavale Museum recently received a knife which is said to be the knife of the English used in putting down the French Revolution and the subsequent Reign of Terror and which served to decapitate Louis XVI, Marie Antoinette, Robespierre, and thousands of others. It was a gift to the museum from a Belgian collector. The relic is said to have been in the possession of the family of Samson the famous executioner of the French Revolution, for several generations.

#### BABY'S OWN TABLETS ALWAYS IN THE HOME

Once a mother has used Baby's Own Tablets for her little ones she always keeps a supply on hand, for the first time she uses them she finds them equal to her in keeping children well. The Tablets are a mild but thorough laxative which regulates the bowels and relieves the body of the heat of out constipation and indigestion, cold and simple fevers and making breathing easier. Concerning them Mrs. Webster of St. Dunans, Queen's writer— "I have used Baby's Own Tablets for the past ten years and an never without them in the house. They have always given the greatest satisfaction and can guarantee them to all mothers of little ones." The Tablets are sold by medical dealers or direct by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brooklyn, Out.

The drug contained in the mescal extract button produces in the user visions of gorgeous sunsets.

#### CATARACT

Cataract is a local disease greatly influenced by TARRH MEDICINE. It is a Tarrh, Internally, and acts through the blood upon the eyes. TARRH MEDICINE assists Nature in removing cataract and can guarantee them to all mothers of little ones." The Tablets are sold by medical dealers or direct by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brooklyn, Out.

Turkey has a government agricultural bank with a capital of nearly \$15,000,000.

The ease with which corns and warts can be removed by Holloway's Corn Remover is its strongest recommendation. It seldom fails.

#### Rosin Has Become Valuable

New Uses Found for a Practically Worthless Product

Many articles in daily use originally from the ground but few realize that "running" rosin has been a thriving industry in the United States for many years, despite the fact that rosin is the product of the sap of certain species of evergreen trees.

Half a century ago rosin was so cheap that it did not pay to put it in barrels and send it to market. The barrels were worth more than the rosin. Turpentine, however, brought a good price and came from the same sap which yielded rosin as a by-product. In 1900 the name was changed to rosin oil on the market and allowed the mother rosin to run into bits where it hardened and was covered with earth to get it out of the way.

This went on for some twenty-five years, and meanwhile the value of rosin went up because new uses were found for it, principally in the soap and paper industries. For a time people forgot about the tons of valuable rosin lying buried on the site of the old turpentine distilleries, but by and by a group of enterprising manufacturers began to work these rosin "names." Of course these buried supplies will eventually be used up, and then people will have to turn once more to reducing rosin from pine gum.

#### Just Needed Studying

Clock Was All Right If You Understood It

The cleaning of the big clock on the English House of Parliament reminds a story told of his grandfather's clock which he treasured very highly in his Gloucestershire family. The ancient in whose house it stands tells visitors that nobody in the household understands much about it except himself, though the clock, he insists, is a good time-keeper. "If only wants studies a little," he says. "You see, when the hands stand at 12 it strikes 2, and then I know it is twenty minutes to 7."
